DEPARTMENT
Pulmonology

CLINICAL FOCUS

Dr. Naurzvai evaluates patients with a broad range of lung diseases, from chronic airway conditions such as asthma and COPD to interstitial disease such as pulmonary fibrosis. She assesses lung nodules and takes part in the diagnostic work-up of lung cancer and other thoracic cancers, using bronchoscopy and endobronchial ultrasound...

Her practice also includes the assessment of pulmonary embolism and of sleep disorders, and she works within the Smoke-Free Life service for patients seeking support with stopping smoking. Further information on the management of respiratory conditions is available on the pulmonary disease treatment page.
