SPECIALTY

Aesthetic Plastic & Reconstructive Surgery

FOCUS

Breast augmentation · Rhinoplasty

HOSPITAL

Acibadem International Hospital, İstanbul

DEPARTMENT

Plastic, Reconstructive & Aesthetic Surgery

CLINICAL FOCUS

Dr. Soysal's areas of expertise are concentrated on four procedures. In breast augmentation, the aim is to increase or restore breast volume, and the consultation typically includes a discussion of the patient's expectations, the surgical approach and the recovery period.

In rhinoplasty, Dr. Soysal evaluates the shape and structure of the nose together with the patient, and the planning conversation covers the changes being sought and what the operation can realistically address. Surgical facelift is considered for patients seeking to address facial changes related to aging;

Breast augmentation

Rhinoplasty

Breast reduction surgery

Surgical facelift

CONDITIONS TREATED

Alopecia Areata

Accessory Breast

Congenital Nevi

Gynaecomastia
