İstanbul

DEPARTMENT
Bariatric & Metabolic
Surgery

CLINICAL FOCUS

A central part of Dr. Karatepe's work is the surgical management of pancreatic diseases and of liver and biliary tract diseases, including fatty liver disease and liver failure. He also practises oncological surgery, endocrine surgery, digestive system surgery and colorectal surgery, and treats hemorrhoids and other anorectal diseases.

In obesity surgery, his areas of expertise include gastric bypass and sleeve gastrectomy. The suitability of any procedure depends on the individual patient's diagnosis, general health and previous treatments, and is decided after a clinical evaluation.
