Wound Care

HOSPITAL
Acibadem Maslak Hospital, İstanbul

DEPARTMENT
Plastic, Reconstructive & Aesthetic Surgery

CLINICAL FOCUS

A substantial part of Dr. Acicbe's practice concerns the breast. He evaluates and treats breast conditions and performs breast augmentation, including a minimally invasive approach to breast augmentation, as well as breast reduction. He also performs the mommy makeover, a combination of procedures that is planned individually according to the patient's anatomy, general health and goals.

In facial surgery, his listed procedures are rhinoplasty, surgical facelift and buccal fat removal. On the reconstructive side, he performs Mohs surgery and provides wound care, which is both a listed area of expertise and his subspecialty. Patients who require wound care or reconstructive surgery are among those he sees.

- Mohs surgery
- Breast augmentation
- Wound care
- Rhinoplasty
- Breast conditions

INTERNATIONAL PATIENTS

Because Dr. Acicbe speaks Turkish and English, consultations with international patients can be conducted in English, and interpreters can be arranged for other languages. Before travel, the international patient team coordinates the collection of prior medical reports and imaging, arranges appointments and organizes the visit to Acibadem Maslak Hospital.

CONDITIONS TREATED

- Accessory breast
