Acibadem Adana Hospital

DEPARTMENT
Cardiovascular Surgery

CLINICAL FOCUS

Dr. Gülcan's areas of expertise include aortic aneurysm, diseases of the great vessels, aortic valve stenosis and other forms of heart valve disease, cardiomyopathy and congenital heart disease, including pediatric cardiovascular surgery.

Cardiopulmonary rehabilitation is a further part of his clinical work, so patients who are assessed for cardiac or vascular surgery may also receive advice on rehabilitation. Whether a surgical, robotic or rehabilitation approach is appropriate depends on the individual condition, the findings on imaging and the patient's overall health,...
