CLINICAL FOCUS

Dr. Özdenoğlu's listed areas of expertise include menstrual irregularities, menstrual pain and premenstrual syndrome (PMS). He sees patients with endometriosis, polycystic ovary syndrome and infertility, conditions that are often assessed together because they may affect the menstrual cycle and the ability to conceive.

In obstetrics, his listed areas include ectopic pregnancy and epidural childbirth. In line with his subspecialty interests, he also cares for women in the menopausal transition and for those with urogynecological concerns.

Menstrual irregularities
