CLINICAL FOCUS

Dr. Güven assesses and treats adults and children with orthopedic and traumatic conditions. In adults, his areas of expertise include hip replacement surgery, knee replacement surgery, shoulder surgery and elbow surgery.

His practice also covers spinal disorders and spinal deformities. In children, he works in pediatric orthopedics and pediatric hand and upper extremity surgery. Whether a surgical or non-surgical approach is appropriate depends on the individual findings, and this is discussed with each patient after clinical assessment and review of...
