General Surgery

CLINICAL FOCUS

Much of Dr. Güner's practice concerns the digestive tract, including the gallbladder, small intestine, colon and rectum, and liver. He evaluates and operates on patients with gallbladder inflammation (cholecystitis) and inguinal hernia, and he provides surgical treatment for inflammatory bowel disease in cases where an operation is being...

In endocrine surgery, Dr. Güner assesses and treats thyroid conditions. His anorectal practice covers hemorrhoids and other anorectal diseases. Whether surgery is appropriate, and which approach is used, depends on the diagnosis, the findings on imaging and examination, and the patient's overall health.
