CLINICAL FOCUS

Dr. Uğurlubilek's work centers on inpatient care. This involves following patients admitted to the hospital, monitoring their general medical condition and coordinating the day-to-day aspects of their care with the wider clinical team. Her experience in internal medicine informs the evaluation of general medical problems that may arise during a hospital stay.

Her areas of expertise also include family planning, women's health and children's health, drawing on her earlier positions in maternal and child health services and in a training hospital. She has worked in outpatient medicine and emergency medicine in several settings, and her background extends to preventive health and occupational diseases. These areas are listed as her fields of expertise;

Inpatient Care Internal Medicine Family Planning
Women's Health Children's Health

INTERNATIONAL PATIENTS

Dr. Uğurlubilek speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
