DEPARTMENT
Ophthalmology

CLINICAL FOCUS

Dr. Comba's clinical work covers a broad range of eye conditions. She assesses and treats refractive errors, including astigmatism, myopia and hyperopia, and performs excimer laser vision correction for suitable patients.

Pediatric eye diseases form a further part of her practice. Dr. Comba has published research on optical coherence tomography angiography in children, on early ocular findings in pediatric patients infected with COVID-19, and on the risk factors, incidence and long-term outcomes of retinopathy of prematurity.
