CLINICAL FOCUS

Dr. Yaşar's main subspecialty interest is thyroid diseases and treatment. Within endocrinology and metabolism, he also evaluates and manages patients with type 1 diabetes, type 2 diabetes, prediabetes, diabetes insipidus and obesity.

His practice also covers general internal medicine conditions, including anemia, edema and upper respiratory tract diseases, as well as digestive disorders such as gastritis, gastroenteritis and fatty liver disease.

Anemia Diabetes insipidus Prediabetes Obesity Edema

INTERNATIONAL PATIENTS

Dr. Yaşar speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. The international patient team coordinates the collection of prior reports and imaging, for example ultrasound, MRI, CT or X-ray reports, laboratory and pathology results, operative notes and discharge summaries, and arranges...
