DEPARTMENT
Pediatrics

CLINICAL FOCUS

In pediatric nephrology, Dr. Aydoğ evaluates and manages children with recurrent urinary tract infections, glomerulonephritis, hematuria and urinary stone disease. She also follows children with kidney failure and chronic kidney disease, conditions that typically require ongoing monitoring and coordination of care over time.

In pediatric rheumatology, her areas of expertise include juvenile idiopathic arthritis, Kawasaki disease, dermatomyositis, Behçet's disease and familial Mediterranean fever. She has co-authored publications on topics such as urinary biomarkers for urinary tract infection in children, complement gene mutations in C3 glomerulopathy,...
