CLINICAL FOCUS

Dr. Barutçu's areas of expertise include ultrasound imaging, Doppler ultrasound, abdominal ultrasound and thoracic ultrasound, together with computed tomography, virtual angiography and X-ray imaging. Her clinical interests extend to oncologic radiology, cardiac imaging, genitourinary radiology and abdominal radiology.

Her published work reflects these interests. It includes studies on the value of computed tomography and magnetic resonance imaging for assessing the severity of liver cirrhosis secondary to viral hepatitis, on duplex and color Doppler ultrasonography of orbital vascular flow in hemodialysis patients, on MRI evaluation of cranial bone...
