CLINICAL FOCUS

A large part of Dr. Çelik's practice is the evaluation and management of diabetes, including type 1 diabetes, type 2 diabetes and gestational diabetes. Her work with diabetes includes the use of continuous glucose monitoring systems where appropriate.

Thyroid disease is her other subspecialty area. Dr. Çelik evaluates and treats thyroid diseases and is involved in the management of thyroid cancer. Her expertise further extends to disorders of the adrenal and pituitary glands, including Cushing syndrome, Addison's disease, adrenal gland cancer and acromegaly.
