Acibadem Maslak Hospital, İstanbul

DEPARTMENT
Radiology

CLINICAL FOCUS

Dr. Seyed's work centers on diagnostic imaging. As a radiologist, her role is to interpret imaging studies and to prepare reports that help referring physicians understand a patient's condition and decide on further steps. This may include reviewing images that were obtained earlier at another institution and comparing them with new studies, so that changes over time can be assessed.

Within radiology, musculoskeletal radiology is a particular area of interest for Dr. Seyed. This subspecialty concerns imaging of the bones, joints, muscles, tendons and ligaments. Her research fellowship at the University of California San Diego (UCSD) was dedicated to this field.

INTERNATIONAL PATIENTS

Dr. Seyed speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
