CLINICAL FOCUS

A significant part of Dr. Atılığ's work concerns the spine. She evaluates and manages low back, neck, and back pain, disc herniation, and cervical straightening, and she offers rehabilitation-based approaches to pain management for patients whose symptoms are related to spinal or musculoskeletal conditions.

Dr. Atılığ also works with muscle and nerve disorders, including myopathies, and with movement disorders, for which she provides assessment and rehabilitation-oriented treatment. Restless legs syndrome is among the conditions she evaluates.

INTERNATIONAL PATIENTS

Dr. Atılığ consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges appointments and the...
