CLINICAL FOCUS

Dr. Karasu's clinical work centers on ultrasound imaging and mammography, with a particular interest in breast diseases. Imaging of this kind is used to assess symptoms, to characterize findings, and to support decisions about whether further investigation is needed.

She also performs ultrasound-guided interventional procedures, in which real-time imaging is used to guide a needle or other instrument to a target area. Her experience in this field includes her time in the Department of Ultrasound-Guided Interventional Procedures at Şişli Etfal Hospital.
