CLINICAL FOCUS

A large part of Dr. Gasimova's practice is concerned with women's health across different stages of life. She evaluates and manages menopause and its symptoms, menstrual irregularities, and pelvic pain. Her work in urogynecology includes the assessment and treatment of uterine prolapse and related pelvic floor conditions.

Her surgical and procedural practice includes hysterectomy, which may be considered for a range of gynecological conditions depending on the diagnosis, the patient's age and her personal circumstances. She also performs vaginal whitening procedures. In obstetrics, Dr.
