DEPARTMENT  
Gynecology & Obstetrics

## CLINICAL FOCUS

In gynecology, Dr. Karayalçın's areas of expertise include urogynecology and the treatment of pelvic floor dysfunction, pelvic pain and Bartholin cysts. She provides endometriosis treatment and treatment of sexual dysfunction, and she offers menopause care for women with symptoms or health questions related to this stage of life.

In obstetrics, she provides pregnancy monitoring and delivery care, with delivery options including epidural, cesarean and water birth practices. She also manages pregnancy-related conditions such as placenta previa and placenta accreta, and treats postpartum fever.
