CLINICAL FOCUS

Dr. Özgür's clinical work centers on diagnostic imaging and interventional radiology. This includes image-guided procedures and nonvascular interventional radiology, as well as the clinical management of patients undergoing interventional radiology treatment, from evaluation before a procedure through follow-up afterwards.

He has also contributed to peer-reviewed research. His publications include Primary Patency Rates of Endovascular Interventions in Hemodialysis Patients with Central Venous Stenosis and Occlusions (Acta Angiologica, 2021) and Parotid gland tumors: comparison of conventional and diffusion-weighted MRI findings with histopathological...
