CLINICAL FOCUS

Anesthesiology and reanimation is the field concerned with anesthesia for surgical and diagnostic procedures and with the care of patients whose vital functions need support. Within this field, Dr. Özay's subspecialty is intensive care, meaning the care of critically ill patients who require close monitoring and, where needed, support of breathing, circulation and other organ functions.

Two further areas of expertise are named on his profile. Advanced life support refers to the structured measures used when a patient's heart or breathing has stopped or is failing, including airway management, medication and the use of monitoring and support equipment.

Intensive care

INTERNATIONAL PATIENTS

Dr. Özay speaks Turkish and English, and interpreters can be arranged for patients who need another language. The Acibadem international patient team coordinates the collection of prior medical documents before the visit, for example imaging reports (MRI, CT, X-ray or ultrasound), laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
