Otorhinolaryngology (ENT)

CLINICAL FOCUS

Dr. Dunder's clinical work covers the full range of ear, nose and throat conditions. In the nose and sinuses, he treats sinusitis and performs nasal and sinus surgery, and he also evaluates smell and taste disorders and snoring. In otology, his areas of expertise include hearing loss and vertigo and balance disorders.

Within head and neck surgery, Dr. Dunder's expertise includes oncological surgery for head and neck cancer, including laryngeal cancer and tongue and tongue-base cancer. Treatment decisions in these conditions depend on the individual patient's findings, the stage and location of disease, and previous treatments, and are made after...
