CLINICAL FOCUS

Dr. Güzeldere's clinical work centers on general pediatrics and child health and diseases. This includes the assessment and follow-up of infants, children, and adolescents with common and less common childhood medical conditions. In general pediatric practice, care typically involves reviewing a child's growth and development, evaluating new or ongoing symptoms, and deciding, together with the family, whether further tests,...

A central part of this work is the pediatric evaluation. For international families, this usually means a structured review of the child's medical history, previous diagnoses and treatments, and any reports that have already been produced abroad, followed by a clinical examination.

INTERNATIONAL PATIENTS

Dr. Güzeldere consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of the child's prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges the...
