Ophthalmology

CLINICAL FOCUS

A significant part of Dr. Çakmakçı's practice involves refractive errors, including astigmatism and hyperopia, and their assessment in patients of different ages. Dr. Çakmakçı also evaluates and treats glaucoma, a condition in which regular monitoring of eye pressure and the optic nerve is usually part of longer-term care.

Paediatric eye diseases form another area of Dr. Çakmakçı's work, with a particular interest in amblyopia and the early detection of refractive errors that may affect visual development in childhood. Dr.
