Ophthalmology

CLINICAL FOCUS

Dr. Küçükgül's clinical work covers both common and chronic eye diseases. She evaluates and treats cataract, and her practice includes smart lenses, which may be considered for suitable patients after a detailed eye examination.

Her practice also extends to strabismus and paediatric eye diseases, and to ocular migraine, in which visual symptoms are assessed together with the patient's wider medical history. The treatment approach for each condition depends on the findings of the examination and the patient's individual circumstances, and Dr.
