CLINICAL FOCUS

Dr. Zeteroğlu evaluates and treats a range of gynecological conditions, including menstrual irregularities, premenstrual syndrome (PMS), menstrual pain, Bartholin cyst, and polycystic ovary syndrome. He provides endometriosis treatment and performs hysterectomy when this is considered appropriate after assessment.

In obstetrics, Dr. Zeteroğlu provides pregnancy follow-up and delivery care, and manages complications such as preeclampsia and ectopic pregnancy. Treatment plans are decided individually after a clinical examination and a review of the relevant test results, and the choice between medical and surgical options depends on the findings in...
