CLINICAL FOCUS

A central part of Dr. Tekin's practice is the diagnosis and treatment of lymphoma. Alongside this hematologic focus, he treats a broad group of solid tumors. In the genitourinary area, his expertise includes testicular cancer, prostate cancer, bladder cancer and kidney cancer. In the gastrointestinal area, he treats pancreatic cancer, stomach cancer, liver cancer and colorectal cancer.

His areas of expertise also include breast cancer, endometrial cancer and brain tumors. As a medical oncologist, Dr. Tekin's role is typically to evaluate the diagnosis and stage of disease, review pathology and imaging, and plan and supervise systemic treatment.

Stomach cancer

INTERNATIONAL PATIENTS

Dr. Tekin consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior medical reports and imaging, arranges appointments and organizes the hospital visit so that relevant documents are available in advance.
