CLINICAL FOCUS

A central part of Dr. Pişkin's practice is the assessment of iron deficiency and anemia in children. This typically involves reviewing the child's history, feeding and growth, examining the child and interpreting laboratory results before discussing possible causes and an appropriate management plan with the family.

Her work also covers general child health and adolescent health, including age-appropriate health concerns that arise from infancy through the teenage years. In the field of pediatric infectious diseases, Dr.

Iron Deficiency in Children Pediatric Anemia Child Health
Adolescent Health Diagnosis of Pediatric Infectious Diseases
