CLINICAL FOCUS

Dr. Aydoğdu's areas of expertise are emergency medical assessment, urgent medical care and emergency care coordination. Emergency medical assessment involves taking a focused history, examining the patient and deciding which investigations are needed to clarify the cause of an acute complaint.

Emergency care coordination describes the organizational side of her work: arranging the investigations, consultations and follow-up that an emergency presentation may require, and communicating with the relevant departments so that the patient's ongoing care is planned in a structured way.

INTERNATIONAL PATIENTS

Dr. Aydoğdu communicates in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, arranges appointments and organizes the hospital...
