CLINICAL FOCUS

A substantial part of Dr. Gündoğan's practice involves urogynecology, including the assessment of urinary incontinence and other bladder health concerns, as well as care for women in and around menopause. He also treats endometriosis, sexual dysfunction, menstrual irregularities, and premenstrual syndrome (PMS).

In surgery, Dr. Gündoğan applies minimally invasive approaches, including vaginal laparoscopy and vNOTES scarless surgery, in which the procedure is performed through the vagina. Whether a minimally invasive approach is appropriate depends on the individual diagnosis, prior treatments, and examination findings, and is discussed with each...
