Pediatric Endocrinology

FOCUS
Growth and Puberty

HOSPITAL
Acibadem Atakent
Hospital, İstanbul

DEPARTMENT
Pediatrics

CLINICAL FOCUS

Dr. Abali evaluates and manages a range of pediatric endocrine conditions. A central part of his work concerns growth and puberty, including growth delay and short stature and early puberty.

He also cares for children with pediatric diabetes, pediatric thyroid disorders and pediatric adrenal gland disorders, as well as children affected by obesity. His practice further includes differences of sex development and osteogenesis imperfecta, conditions in which endocrine assessment forms part of the broader care of the child.
