CLINICAL FOCUS

Dr. Bayar's areas of expertise are clinical biochemistry, clinical laboratory services and laboratory diagnostics. Clinical biochemistry involves the analysis of blood, urine and other body fluids to help physicians assess organ function, metabolic status and other aspects of a patient's health.

Within the Clinical Laboratory unit, Dr. Bayar works to support appropriate laboratory evaluation and coordination with the wider care team. His career in laboratory service roles across several hospital biochemistry departments has given him experience in the day-to-day operation of clinical laboratories and in the delivery of laboratory diagnostics that inform decisions about diagnosis, treatment and follow-up.

INTERNATIONAL PATIENTS

Dr. Bayar communicates in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, MRI, CT, X-ray or ultrasound reports, operative notes and discharge summaries, and arranges appointments and the...
