Metabolism

CLINICAL FOCUS

Pituitary disorders form one of Dr. Tanrikulu's subspecialty areas. She evaluates and treats conditions such as acromegaly and Cushing syndrome, as well as other pituitary diseases, and she also sees patients with endocrine pancreatic tumors.

Metabolic conditions are another central part of her practice. She manages type 1 diabetes and type 2 diabetes, including the review of glycemic control and treatment adjustment, and she cares for patients with obesity and morbid obesity from an endocrine perspective. She also evaluates and treats osteoporosis.

Osteoporosis Type 1 diabetes treatment Type 2 diabetes treatment
Acromegaly Cushing syndrome

CONDITIONS TREATED

Osteoporosis Type 2 diabetes treatment Acromegaly
Cushing syndrome Endocrine pancreatic tumors
