CLINICAL FOCUS

Dr. Palaoğlu's spinal practice addresses lumbar spinal canal stenosis, cervical spinal canal stenosis and reduced lumbar lordosis. Where stabilization of the spine is being considered, his areas of expertise include spinal fusion surgery. Not every patient with spinal narrowing or altered spinal alignment requires an operation;

In cranial neurosurgery, his areas of expertise include meningioma, gliomas, hematoma and arachnoid cyst, as well as pituitary disorder treatment.

Assessment of these conditions generally involves a review of imaging and, where relevant, laboratory findings before discussing whether observation, medical management or surgery is...
