CLINICAL FOCUS

A substantial part of Dr. Berk's practice concerns the leukemias. She evaluates and treats patients with acute lymphoblastic leukemia (ALL), acute myeloid leukemia (AML) and chronic myeloid leukemia (CML). CAR T-cell therapy is also among her areas of expertise, as are bone marrow diseases more broadly.

Dr. Berk also treats non-malignant blood disorders. These include anemia, including iron deficiency anemia, and immune thrombocytopenia (ITP). Her expertise further extends to Castleman disease and Henoch-Schönlein purpura. Because symptoms such as tiredness, bruising or bleeding can have many different causes, assessment usually begins with a careful review of blood results and previous reports before a diagnosis is...

Chronic myeloid leukemia (CML)

Anemia

Iron deficiency anemia

INTERNATIONAL PATIENTS

Dr. Berk consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports, for example laboratory and pathology results, imaging reports such as MRI, CT, X-ray or ultrasound, operative notes and discharge summaries, and it arranges appointments and...
