Hospital, Muğla

DEPARTMENT
Neurology

CLINICAL FOCUS

A significant part of Dr. Okundu's practice concerns cognitive and movement disorders associated with aging. She evaluates and follows patients with dementia, including Alzheimer's disease, as well as patients with Parkinson's disease and other ageing-related neurological conditions.

Dr. Okundu also sees patients who have had a stroke and those who may be at risk of one, with attention to preventive stroke care and the management of contributing factors. Her areas of expertise further include headache and migraine, dizziness, epilepsy and multiple sclerosis.

Parkinson's disease

INTERNATIONAL PATIENTS

Dr. Okundu speaks Turkish and English. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI or CT reports, laboratory results, discharge summaries and records of previous treatments, and arranges appointments and the hospital visit.
