Pediatrics

CLINICAL FOCUS

Dr. Eryilmaz evaluates and manages endocrine conditions in children and adolescents. Growth and development is a central part of her work, and her profile lists adolescent health as a further area of expertise.

Her published work, ten papers of which are listed on this page, reflects these interests. Several papers address growth hormone: the exon 3 deleted/full length growth hormone receptor polymorphism in relation to response to growth hormone therapy in growth hormone deficiency and Turner syndrome, the distribution of this polymorphism in...
