DEPARTMENT
Otorhinolaryngology (ENT)

CLINICAL FOCUS

Dr. Yazla evaluates and treats patients with hoarseness and other voice complaints, swallowing difficulties and salivary gland diseases, areas that connect closely with his training in laryngology and phoniatrics.

In rhinology and sleep-related breathing, his practice includes snoring, adenoid conditions and septoplasty, the surgical correction of a deviated nasal septum. His polysomnography certification supports the assessment of patients whose snoring may be linked to breathing problems during sleep.
