### CLINICAL FOCUS

Sena Sivri's areas of clinical interest include Eating Disorders and Obsessive Compulsive Disorder. In both areas, psychological assessment and structured psychotherapeutic work are typically carried out alongside the psychiatric team within the Psychiatry & Psychology unit, so that each patient's care can be planned in a coordinated way.

She also works in the areas of Smoke-Free Living and Neuropsychological Assessment. Smoke-Free Living refers to psychological support for people who wish to stop smoking and to maintain that change over time.

Neuropsychological Assessment involves structured testing used to describe aspects of a person's cognitive functioning;

Eating Disorders

Obsessive Compulsive Disorder

Smoke-Free Living

Neuropsychological Assessment

### INTERNATIONAL PATIENTS

International patients who wish to consult Sena Sivri are supported by the international patient team, which coordinates the collection of prior reports and previous treatment records, arranges appointments and organises the hospital or outpatient clinic visit. Interpreters can be arranged where needed.

### CONDITIONS TREATED

Eating disorders

Obsessive compulsive disorder

Smoke-free living

Neuropsychological assessment
