CLINICAL FOCUS

A substantial part of Dr. Ağırgöl's work involves inflammatory and infectious skin disease. She sees patients with eczema (atopic dermatitis), skin infections and athlete's foot, and she assesses children with urticaria.

Her procedural and cosmetic work includes mole removal, pigmentation treatment, gold needle treatment, botulinum toxin applications and hyperhidrosis treatment for excessive sweating. She also advises on skin care. Whether a given procedure is appropriate is decided individually after examination, and Dr.

Gold needle treatment Hyperhidrosis treatment
Botulinum toxin applications Behçet's disease Athlete's foot
