SPECIALTY

Aesthetic Plastic & Reconstructive Surgery

FOCUS

Breast Augmentation · Breast Reduction

HOSPITAL

Acibadem Taksim Hospital, İstanbul

DEPARTMENT

Plastic, Reconstructive & Aesthetic Surgery

CLINICAL FOCUS

A substantial part of Dr. Durukan's work involves surgery of the breast. In breast augmentation, the aim is to change breast volume or shape in line with the patient's wishes and anatomy; the planning discussion typically addresses the patient's expectations, the available approaches and the likely course of recovery.

Dr. Durukan also performs rhinoplasty, surgery of the nose that may be undertaken for aesthetic reasons, for functional reasons or for a combination of the two. Before any procedure, the patient's history, the findings of a clinical examination and the intended outcome are reviewed together, and the possible options and their limitations are explained.

Breast Augmentation

Breast Reduction

Rhinoplasty

INTERNATIONAL PATIENTS

Dr. Durukan speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
