Hospital, İstanbul

DEPARTMENT
Radiation Oncology

CLINICAL FOCUS

Dr. Yücel plans and delivers radiotherapy for a range of solid tumors. Her areas of expertise include breast cancer, gastrointestinal cancers, head and neck cancers and brain tumors. Radiation treatment in these settings is typically considered as part of a broader cancer care plan, and the suitability of any approach depends on the type...

In addition to external radiotherapy, she has expertise in brachytherapy, a form of internal radiation treatment in which a radiation source is placed close to or within the area being treated.
