CLINICAL FOCUS

Dr. Şener's clinical practice covers emergency medicine, emergency assessment and urgent medical care, together with the management of the Emergency Service. In the emergency setting, his role includes the initial evaluation of patients presenting with acute conditions, stabilization and treatment planning, and coordination of subsequent...

His published work reflects this scope. Topics include procedural sedation and analgesia with ketamine and midazolam in adult emergency department patients, the timing of informing emergency department patients about cardiac test results, the impact of associated diseases in geriatric trauma patients, occupational hand injuries, the...
