DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Sürücü evaluates and treats a range of joint diseases and injuries. In the knee, his work covers anterior cruciate ligament tears, meniscus tears, other knee and joint injuries, and knee replacement surgery. He also performs hip and knee replacement surgery for patients with advanced joint disease, including osteoarthritis.

His practice also includes shoulder and elbow surgery, foot and ankle surgery, hand and wrist injuries and fractures, and ligament, tendon and nerve injuries. Within sports medicine and sports traumatology, he sees patients with sports-related injuries of the upper and lower extremities.
