CLINICAL FOCUS

Intensive care treatment forms the core of Dr. Ünsal's practice. This involves the care of patients whose condition is critical or unstable and who require continuous observation, organ support, and close coordination with other medical teams. In the intensive care setting, treatment decisions are reviewed regularly as the patient's condition changes, and the plan is adjusted accordingly.

Advanced life support is part of his work with patients experiencing acute, life-threatening deterioration, where rapid assessment and structured intervention are required. Dr. Ünsal's practice also includes palliative care, which focuses on relieving symptoms and supporting comfort and quality of life for patients with serious illness.

INTERNATIONAL PATIENTS

Dr. Ünsal consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges appointments and the...
