Acibadem Atakent Hospital, İstanbul

DEPARTMENT
Anesthesiology & Reanimation

CLINICAL FOCUS

Dr. Atınçer's clinical work is centered on anesthesiology and reanimation. She provides anesthesia care for patients scheduled for surgical and medical procedures, selecting and managing the anesthetic approach in cooperation with the procedural team.

During procedures, her role includes perioperative monitoring, which involves observing the patient's vital functions and adjusting anesthetic management as needed throughout care. This attention to comfort and safety continues from preparation before the procedure through monitoring during the procedure itself.

INTERNATIONAL PATIENTS

Dr. Atınçer speaks Turkish and English, and interpreters can be arranged for patients who prefer to communicate in another language. For international patients, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and...
