CLINICAL FOCUS

A large part of Dr. Berberoğlu's practice concerns the first months and years of life. She provides newborn follow-up and evaluates infants with colic and gas pain, symptoms that are common but can be distressing for families.

In older infants and children, she diagnoses and treats childhood infectious diseases, including croup, and evaluates recurrent fever patterns such as PFAPA syndrome. Her clinical interests also include iron deficiency and anemia in children and urinary incontinence in children.

Infant colic Infant gas pain Childhood nutritional disorders

Lactose intolerance in infants

Diagnosis and treatment of childhood infectious diseases

INTERNATIONAL PATIENTS

Dr. Berberoğlu consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, for example ultrasound or X-ray reports, laboratory results and discharge summaries, and arranges appointments and...
