CLINICAL FOCUS

Sevda Gökçe is an embryologist at Acibadem Bursa Hospital in Turkey, working within the In Vitro Fertilization and Reproductive Medicine Center. She supports assisted reproduction treatments through laboratory work with eggs, sperm and embryos, and is also affiliated with the hospital's unit for the treatment of pelvic pain.

Embryologist Sevda Gökçe works at the In Vitro Fertilization and Reproductive Medicine Center of Acibadem Bursa Hospital, where her work centres on the laboratory side of assisted reproduction. As an embryologist, she is involved in the careful handling and assessment of eggs, sperm and embryos that underpins every IVF treatment cycle, and she also contributes to the hospital's unit for the treatment of pelvic pain.
