CLINICAL FOCUS

A substantial part of Dr. Ulusoy's work involves the assessment and management of childhood iron deficiency and anemia, which may come to attention during routine checks or after a family notices symptoms such as fatigue or pallor.

Dr. Ulusoy provides well-child follow-up for children and adolescents, monitoring growth and development at regular intervals and addressing questions about child and adolescent health as they arise. Her work also includes the evaluation and treatment of rickets.

Childhood iron deficiency and anemia

Diagnosis and treatment of childhood infectious diseases

Childhood urinary incontinence

Childhood constipation

Upper respiratory tract infections in children

INTERNATIONAL PATIENTS

Dr. Ulusoy consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports, such as laboratory and pathology results, imaging reports (for example ultrasound or X-ray reports), operative notes and...
