DEPARTMENT

Pediatric Intensive Care Unit

CLINICAL FOCUS

Dr. Topal's clinical work centers on pediatric intensive care: the assessment, monitoring and treatment of critically ill children in the Pediatric Intensive Care Unit. Her background also covers pediatric emergency medicine, which concerns the initial evaluation and stabilization of children with acute illness or injury, and pediatric...

Her published work reflects several topics relevant to the pediatric intensive care unit. These include central venous catheter types and their association with bloodstream infection, skin bathing with chlorhexidine gluconate in relation to central line-associated bloodstream infections and to colonization with carbapenem-resistant...
